KOH TAN & KOH MUDSUM (PIG ISLAND)

(Half Day Tour)

Koh Tan, is a primitive tranquil island and spans an area is 7.5 square kilometers. The island is the neighboring island of Koh Samui. On the island lies a small pristine village and there is neither car nor road. The island, surrounded by coral reef with serene white sandy beaches, offers a perfect spot for snorkeling and sun-bathing. According to the superstitious belief, the dog is unable to reside on the island due to the forbidden supernatural power. If a dog steps on Koh Tan, it will be wailing howl and run around until it dies.

Koh Mudsum has a great beach and some good snorkeling spots. The small island has some granite cliffs that overhang the water that are good for kayaking. Koh Mudsum is also famous for its seaweed which the Thai government is trying to preserve in this area.

DOLPHIN TRIP

(Half Day Tour)

Only 25 mins by speed boat from our hotel to Khanom area near the mainland, there are four kinds of dolphins living in the waters of Thailand, but the most common is the Indo-Pacific Humpback Dolphin. When they were born, the dolphin's color is gray, they are pink due to due to the many capillaries under the skin which helps them regulate their body temperature and another reason because they're getting old. They can swim fast as 37 kph. and come to surface every 5 mins to breath. Be a part of coastal conservation, join us on an amazing day tour to see rare pink dolphins. Seeing the dolphin along the coastlines shows that the environment is clean with a healthy ecosystem. On the way back, stop by at Koh Tan and enjoy snorkeling.

FIVE ISLAND SUNSET CRUISE

(Sunset Hour)

Five Islands. In Thai, they are known as Koh Si Koh Ha, which translates as Four Islands-Five Islands, as one of them is hidden behind another. The islands, covered with stunted trees clinging to their rocky slopes, are home to thousands of swifts that build their nests on rocky outcrops that are collected by climbing precarious bamboo ladders. The nests eventually end up in pricey bird's nest soup in Hong Kong and China. The tour takes in caves, hidden beaches, limestone pinnacles, and the remote dwellings of the security guards stationed there to keep away poachers from the nests. This is the best spot to see the sunset. Join the sunset tour and take a photo with the five-island foreground.
